Welcome to the exhibitor meeting!

We can't wait to see you all again, and to prepare a great 2023 edition with you!

On the programme

- A word from Pollutec's Director, Anne-Manuèle Hébert
- Presentation of the 2023 edition
- Highlights of Pollutec 2023
- Guidance and advice for a successful show
- Technical briefing for an optimal stand
- Q & A

A word from Pollutec's Director, Anne-Manuèle Hébert

"Decomartmentalising discussions: that's the challenge for Pollutec at this new edition. At the crossroads of the issues between the public and private sector, industries and project sponsors, our goal is to **spark discussion, conversation and meetings to encourage a holistic vision of our society's current problems."**

Presentation of the 2023 edition

about the brand

Show map

From treating pollution and pollutants to environmental protection and combating climate change, Pollutec promotes innovations and emerging topics and unites environmental players — French and international — around a single goal: **providing solutions to the environmental challenges facing every stakeholder.**

Pollutec, internationally

This year Pollutec once again welcomes a whole host of countries, exhibitors, visitors, pavilions and international delegations (Germany, Colombia, Morocco, Turkey, Ivory Coast etc.)

Key figures*

28% international exhibitors

36 countries represented

12% international visitors

83 countries represented

*Figures from the 2021 edition of Pollutec

2023 International Pavilions

Algeria, Germany, Bavaria and Baden-Württemberg, Belgium, Flanders and Wallonia, Finland, Luxembourg; the Netherlands, Switzerland etc.

2023 international delegations in process

Quebec, Chile, Africa, Denmark, China, Tunisia, Spain...

International forum

This new forum is intended **to provide visibility to international delegations** searching for solutions to their challenges and needs, as well as to present major international projects and export solutions.

Country of Honour: Italy!

In 2023 **Italy**, a country committed to environmental issues, has the opportunity **to present its ecosystem and expertise in energy solutions and renewables**, in particular through the presence of large Italian cities, start-ups, speakers, and a morning dedicated to Italy during Green Days.

Pollutec showcases its DNA and programme

From 2023, the Pollutec visitor pass will now cost €40- €60 depending on the pricing period.

The pass includes:

Unlimited access to the programme and events over 4 days

- ✓ 2,000 exhibitors across 11 exhibition sectors
 - ✓ 450 themed talks
 - ✓ 8 visitor trails
- ✓ 200 innovations presented
 - ✓ 85 selected start-ups
- ✓ The Pollutec Innovation Awards Ceremony
- ✓ "Green Days" business meetings
 - ✓ The Water Hub

Added extras

- ✓ A dedicated hotline
- ✓ Access to a dedicated Pollutec 2023 car-sharing service
 - ✓ Special rates with Lyonnais partners
 - ✓ Interpreting of the Podium talks
- ✓ Interpreting of the International Forum talks

Organization Committee

This edition has been prepared with the support of our organization committee, whose members help to determine the show's strategic directions while developing content and activities in tune with the latest news and market developments.

Highlights of Pollutec 2023

Water Hub

This space aims to address the challenges and questions around **water frugality**, the **climate transition**, **loss from leakage** etc. as well as highlighting **innovations and developments in the sector**.

➤ 1 **demonstration** area (construction space in which a potable water transport network will be reproduced, which each day of the show will showcase the site cycle):

- Build-up
- Operation
- Smart Water
- Knockdown

➤ 1 **totems** area (highlighting content and sponsors)

Aimed at attracting a multitude of target profiles

- | Local and regional authorities
- | Public works companies
- | Design bureaux
- | Private water network operators
- | Students

Take part in the Water Hub by subscribing to the turnkey package!

Any questions:

arnaud@monreseau.eau.fr

Visitor trails

Illustrating the global approach of Pollutec in **supporting solutions to the environmental challenges facing every stakeholder**, eight visitor trails will be offered to participants in 2023:

- | Innovation
- | Sea and coastline
- | Management of water resources
- | Decarbonising
- | Adaptation of cities and regions to climate change
- | Management and recycling of biowastes
- | Circular economy
- | Health and environment

Enter the visitor trails you'd like to appear on directly from your Exhibitor Area!

Any questions:

Contact our customer services by [clicking here](#)

Careers, Training & Skills area

An area organised by Actu-Environnement

This dedicated space allows visitors to discover the different subsidiaries and careers in the sectors. It also encourages networking between job seekers, students and recruiters.

- A **fixed Area** right at the heart of the show
- A series of **zones with their own functions** throughout the four days of the show
 - Meeting space for recruiters & jobseekers, partners & visitors
 - Video studio to record TV programmes and interviews
 - Actu-Environnement Newsroom for media coverage of the show
- Pre-show research to **identify recruitment needs**
 - Searchable profile database
 - Compilation of offers and interview arrangement

Download directly in your Exhibitor Area employment offers you'd like to share at the show.

Any questions:

Contact our customer services by [clicking here](#)

Green Days

A programme of qualified business meetings to build technological and commercial partnerships around the world, **organised by the Auvergne-Rhône-Alpes region CCI and their partners** as part of the European Commission's Enterprise Europe Network.

In 2021 the “Green Days” business meetings held on-site and remotely brought together **950 participants** across **57 countries**, with **1,090 one-to-one business meetings** held.

Go to your Exhibitor Area to subscribe free of charge to the platform and join the programme!

Any questions:
clementine.leclercq@rxglobal.com

Start-up area

A strategic exhibitor package for maximum visibility on an optimised budget, comprising: **your presence over 4 days**, and **2 speaker slots** on a stage dedicated to start-ups!

The **Arena**, a stage dedicated to start-ups, is the space where for several minutes start-ups can present their project, product or solution and convince investors and specifiers attending Pollutec.

Several spaces are still available - spread the word!

Any questions:
[Contact us](#)

The side events

The inauguration ceremony

1st highlight of the show: cut the ribbon and mix with elected representatives, institutional partners, international VIP delegations and the RX France team.

The Pollutec soirée

Venue: La sucrière, Lyon

A **deliciously fun event**, the Pollutec networking evening is the perfect way to **build on contacts** made at the show. Clients, prospective partners and colleagues **maintain and extend their network**.

Your events

Each exhibitor can organise **their own events** on their stand and in our meeting rooms; drinks reception, launch talk, general get-together etc.

Don't miss out - book your place for the Pollutec networking evening!

Any questions:
[Contact us](#)

Talks

The edition boasts **over 400 talks**: **la Tribune**, Pollutec's official stage, **the Forums** available for exhibitors and **the Villages**, that's almost **20 speaker** stages at the show.

La Tribune, the official stage of Pollutec, is the show's main expression space where political actors, major manufacturers, large associations and federations come each year to debate and present their real-world actions and projects implemented to accelerate the ecological transition.

The Villages, located at the heart of the exhibition sectors, are speaker stages at the disposal of exhibitors looking for example to present a new product or their expertise.

- | Recycling
- | Biogas
- | Circular Economy in the Construction Industry
- | Sites and Soils
- | Trenchless Technologies

The themed forums (X11) located at the heart of the exhibition sectors, are speaker stages at the disposal of exhibitors looking for example to present a new product or their expertise.

- | Water and Sanitation
- | Waste Management
- | Energy
- | Sustainable cities and regions
- | Sustainable industry
- | Circular Economy
- | Risk management
- | Agriculture and Climate
- | Biodiversity and the natural environment
- | Bluetec sea & coastline
- | International

Are you organising a talk? Here's a few tips!

- No more than 4 speakers
- Having a remote participant is not recommended
- Presentation format: Powerpoint, 16:9 format recommended (template available in the Exhibitor Area)
- Prepare a PDF version
- Don't send your presentation to the Pollutec team

On the day

- Be there 10 minutes before the start of your talk
- Come with your USB stick containing your presentation (PPT and PDF format)
- Bring your own computer on which you know the presentation works (just in case there's a problem reading the file or with the format)
- Manage your timing (45 minutes including questions/answers)

Programme preview

The Podium will welcome well-known speakers for plenary sessions around 4 pillars:
Resources, Adaptation, Commitment & Employment

Tuesday 10 October

11:45 - 12:30

Decarbonising and reindustrialising in France - a single agenda

Wednesday 11 October

11:00-11:30

Presentation of PolarPod and issues arising from its discoveries

Wednesday 11 October

11:45 - 12:30

Strategic metals - given the increasing demand and rarity of the resource, how can the realities be aligned?

Wednesday 11 October

16:10 - 16:50

Green hydrogen - the obstacles and challenges facing a decarbonised, regional energy source

Thursday 12 October

10:15 - 10:45

Young people and their environmental commitment

Pollutec Innovation Awards

Pollutec Innovation Awards is an international competition **promoting French and international eco-innovative businesses.**

Co-organised with PEXE, it awards technological innovations and services declared by Pollutec exhibitors as having **strong market potential in the environmental and energy sectors.**

- | 12 pre-selected start-ups, SMEs and major companies
- | Pitches to a jury of blue-chip companies and market players
- | 3 innovations recognised

Enter free of charge by 31 July directly from your Exhibitor Area.

Any questions:
innopol10@gmail.com

The Innovations exhibition

This year the Place des Lumières will welcome the 12 innovations pre-selected for the Pollutec Innovation Awards

To have your innovation appear in the exhibition, enter the Pollutec Innovation Awards before 31 July on your Exhibitor Area!

Any questions:
innopol10@gmail.com

A day for elected representatives and local authorities

On the programme

10:00–10:20: Welcome coffee

10:20–11:30: Sponsors have the option of participating in and moderating 1 workshop, from among:

* Each workshop will be moderated by an expert and followed by a feedback session. Each participant can take part in a maximum of 2 workshops.

1. Integrated water management, development & the water cycle: from funnel to sponge city
2. Bringing biodiversity back into towns and cities
3. Climate Law and resilience for coastal towns and cities
4. Regional management of clay shrink-swell
5. Biowaste: from waste to local resource
6. Combating land artificialisation: integrating NNLT (No Net Land Take) objectives into planning documents
7. Reducing energy bills for towns and cities

11:30–11:45: Debriefing of each workshop by expert moderators

11:50–12:30: Talk and discussion with Jean-Louis Etienne

12:30–14:00: Cocktail lunch

14:00–15:30 - Visit to the show. 8 visitor trails available

1. Innovation
2. Sea and coastline
3. Managing water resources
4. Decarbonisation
5. Adapting towns, cities and regions to climate change
6. Management and recovery of biowaste
7. Circular economy and preservation of resources
8. Health and environment

Opportunity to attend the official Podium programme, Wednesday afternoon – front-row reservations.

The topic of the sustainable city has for a long time been at the heart of what Pollutec is about, and elected representatives and regional actors are a key public for the event.

We have therefore decided to offer an invitation-only programme for elected representatives and regional actors, blending tour itineraries, workshops and a networking lunch to support them in their search for solutions that tackle their environmental issues and encourages the sharing of good practices. Around one hundred representatives are expected to take part on the day.

Guidance and advice for a successful show

Promote your participation

Make the most of the free tools we offer you!

Complete your profile on your Exhibitor Area: maximize your visibility on the web and the show's search engines

- Complete your exhibitor profile
- Upload your press releases and press kits
- List your products
- Tell us your innovations

If you'd like to use more invitations than are included in your allocation, you can order additional invitation packs

- Pack de 20 e-invitations à 582 €HT
- Pack de 30 e-invitations à 818 €HT
- Pack de 50 e-invitations à 1 272 €HT
- Pack de 100 e-invitations à 1 818 €HT

Any questions:

[Contact us](#)

Invite your clients and prospects: the best ambassador for your participation, is you!

Use the media kit for:

- Emailing your contact base to announce your programme (activities, talks, innovations etc.)
- Using social networks to announce your attendance and invite visitors to your stand

Use your e-invitations*:

- Manage the sending of your invitations: send an access link to a free** visitor badge to clients and prospects you'd like to invite to the show.

* number limited and set by your package

** value of the badge ≈ 60 excl. tax

Stand out by taking part in show highlights

Benefit from the **free** tools we offer you!

Organise an activity on your stand: stand out from the competition!

Take part in Green Days: the international business meeting programme.

- Subscribe before **17 September** from your exhibitor area and let us guide you

Enter the Pollutec Innovation Awards: the international competition that rewards outstanding technology and service innovations.

- Tell us your innovation **before 31 July**, and let us guide you.

Boost your visibility!

Order your additional tools from a wide range of products!

Be more visible on the site!

Visitor map: the essential document for navigating the show

50,000 copies printed for distribution at the show entrances

The map contains a general layout, blow-ups of each hall and the exhibitor list.

Orientation plan: plan of the show or hall

The plans are located at key touchpoints: entrances, aisle hubs, rest areas

Floor graphics

Help visitors find you with step-by-step directions to your stand. Ideal for exhibitors in the largest exhibition sectors.

Deadline: at least 1 month before the start of build-up

You'll find all of the contacts and orders in your Exhibitor Area "My Stand", then "Setting up my stand" then "Complementary services"

Sustainable development of the show

Choose low-carbon transport

Prioritise low carbon transport (train, waterways and by sea, bicycles, electric trucks etc.)
Pool delivery with other event participants.
The show's official service providers, GONDRAND, CLAMAGERAN and CLASQUIN are organising group transport. Pollutec is also putting in place a car-sharing platform directly accessible via the website.

Reduce packaging

Avoid as far as possible over-packaging.
For preference use materials that are easily-recyclable or, even better, are reusable.

Think eco-design

For preference use materials that are reusable and recyclable, as well as LED lighting.
For stand construction we offer bespoke eco-designed stands.

Communicate responsibly

We recommend you avoid flyers and promotional goods, and instead offer a great experience on your stand.
If you'd like to keep these however then consider only ordering what you need, opt for environmentally friendly materials, and switch to ethical or zero-waste promotional goods

Opt for sustainable catering

Avoid food waste by ordering the right amounts
For preference have organic, local and seasonal products
Eliminate plastics by opting for reusable or recyclable tableware, and bringing your own water bottle.
Select a caterer who has a CSR policy in place and has their kitchen near to reception.

Reduce and sort waste (packaging, magazines, flyers, bottles etc.)

We can help you to better manage wastes during build-up, operation and knockdown and to improve rates of sorting and recycling. (Consider ordering your skips at Eurexpo to actively contribute to taking better care of the environment).
During open hours, you can sort selectively using the bins available to the public.

Recycle wastes (stand structures, heavy materials, carpets etc.)

For bare stands, arrange the removal and recycling of your wastes and plan to re-use them.

Let's go!
